

My name is Savannah Crisman. I graduated from Central High School and Triplett Tech, where I completed cosmetology school.

I have recently received my cosmetology license, as I am currently employed at Rooted Beauty Collective in Mount Jackson, Virginia.

I plan to further my education in business and marketing courses at Laurel Ridge Community College to give me additional knowledge and experience as I would love to be a future business owner myself.

I am very thankful to be receiving this scholarship to help me achieve these future goals.

My mother has been employed in Shenandoah County Public Schools as a bus driver for thirteen years as well as my grandfather who has been employed for four years as both have been two of my greatest supporters.
